Engage

in field trip activities. The Visitor Education Center offers guided tours and **F.I.S.H.** programs for students. These programs are Fun, Interesting, Surprising, and Hands-on!

For more information on educational opportunities and events or to download an *Educator's Planning Packet* visit www.mdwfp.com/nmfh.

Learn

more about local plant species in a native habitat located at the facility's entrance.

This MDWFP facility also provides opportunities for the public to learn more about Mississippi's abundant natural resources through workshops, seminars, and fishing events.

Encounter

the Visitor Education Center's 10,000 gallon aquarium featuring multiple freshwater fish species native to Mississippi.

Many of the species featured in the aquarium are raised at the North Mississippi Fish Hatchery. The hatchery can raise up to 2 million fish each year!

Explore

permanent and temporary displays, engage in interactive exhibits, and see the original mount of the world record white crappie caught in 1957.

Gather information about freshwater sportfishing, learn about fish identification, and examine antique fishing tackle.
