
Upper Sardis

Wildlife Management Area Map

CAUTION: Public use trails may be located on this wildlife management area. Recreational trail users, hunters, and other visitors should be aware that other users may be on the area at the same time they are. All users should learn and observe trail safety guidelines and always make other users aware of their presence.

State wildlife management areas (WMAs), fishing lakes, and parks are managed to be as close to a natural condition as possible, while providing access and opportunities for outdoor recreation. Any number of animals, plants, and insects, some of which may be dangerous to humans, may be found on state WMAs, lakes, and parks. Please enjoy the opportunities we offer to interact with nature, but be mindful of your surroundings.
