Fishing Tips

Bream

Catfish

- Try tightlining liver or blood scented bait along the creek channel and levee.

Crappie

- Target brush and willow trees along the creek channel with jigs and minnows. The marina is another good spot to try.

Largemouth Bass

- Target willow trees with junebug or green pumpkin colored soft plastics. Shad colored chatterbaits and spinnerbaits are good choices around emergent vegetation. The river can be a good area after rain events.

Right: Young anglers had a great deal of success during the Youth Day prior to the lake opening. They caught a variety of fish species.

Below: Results from the 2021 fall electrofishing survey conducted at Lake Tangipahoa. The lake supports a diverse fish assemblage, due to the Tangipahoa River. This provides an ample forage base for sport fish such as Largemouth Bass, Spotted Bass, Black Crappie, White Crappie, and Chain Pickerel.
