General Information: Bee Lake is a 1,400 acre oxbow lake in Holmes County. It is one of the largest natural lakes along the bluff line between the flatlands of the Delta and the forested uplands of the Yazoo River Basin. Historical data suggests that the lake was formed by the Ohio River. The lake is long, roughly 14 miles from its upper to lower end. The lake has an average depth of 5 - 6 feet.

Location: On Highway 49E in Thornton, MS about 25 miles north of Yazoo City and 35 miles south of Greenwood.

Fishery Management: Largemouth Bass, crappie, catfish, and bream

Purchase a Fishing License: [https://www.ms.gov/mdwfp/licensing/login](https://www.ms.gov/mdwfp/licensing/login)

### Regulations
- 30 crappie per day.
- 10 Largemouth Bass per day.
- 100 bream per day.
- No limit on catfish.

### Fish Stockings

#### 2019
- Largemouth Bass 50,000

#### 2018
- Largemouth Bass 12,000; 4 in.

#### 2017
- White Crappie 50,000; 3 in.
- Largemouth Bass 14,000; 1.5 in.
- Bluegill 115,000; 1 in.

#### 2016
- 105,000 Bluegill 1.5 in.

#### 2015
- White Crappie 55,000; 2 in.
- Bluegill 250,000; 1.5 in.

### Sportfishing Tips

#### Largemouth Bass
- Try areas around brush tops, fallen logs and around cypress stumps.

#### Crappie
- In the spring fish structure along the banks with minnows or jigs. During summer and winter months try trolling through the deeper areas of the lake.

#### Bream
- Fish areas with structure and around cypress knees in water less than 5 feet deep with crickets or red worms, especially in the late spring and summer.

#### Catfish
- Fish shallow mudflats near the cypress trees with night crawlers, chicken livers, or stink bait.
Below: Results from the 2020 electrofishing survey on Bee Lake. Bee Lake is sampled in the fall every 2 to 3 years. Catch rates for Largemouth Bass, bream, and crappie showed a slight decrease from 2018; however, catfish showed a slight increase.

Left: Bee Lake is home to multiple bass tournaments each year. Anglers come from all over the state to join in some great bass fishing at a beautiful Delta oxbow.
Left: Largemouth Bass length distribution for Bee Lake from the 2020 electrofishing survey. Bass total lengths ranged from 4 to 18 inches. The wide range of fish indicates a good spawn in previous years.

Right: Bluegill length distribution for Bee Lake from the 2020 electrofishing survey. The majority of Bluegill ranged from 4 to 6 inches in total length with a few reaching 7 inches.

Left: Crappie length distribution for Bee Lake from the 2020 electrofishing survey. Crappie numbers indicated a good range of young and mature fish in Bee Lake.
