

Bob Tyler Fish Hatchery's Visitor Education Center

Spring Break WEEKLONG Events!

March 10-13 at 2:00 p.m. each day!

March 10:

"Reptilian Thieves Mystery Program"

This event will explore some reptilian predators for fish! Participants will identify these animals from "clues," which include replica specimens, available for investigation! An aquarium feeding of the fish and turtles in the VEC's 10,000-gallon aquarium will follow the program.

March 11:

"Birds of Prey Mystery Program"

Participants will identify some of the "arial predators" for fish! Many of these creatures are seen at the hatchery ponds! This program will follow with the Magnolia Wildlife Rehabilitation staff showing some of their current birds, including a Mississippi Kite, Eastern Screech Owl, and Great Horned Owl.

March 12:

"Fishing for Clues Mystery Program"

This "fishy" program will allow participants to identify carnivorous fish that prey on other fish! Real and replica specimens will again allow "investigators" to identify these mysterious creatures! The program will follow with a "Gyotaku Printing" session using fish molds and ink!

March 13:

"Mysterious Mammals Program"

This final program will allow participants to handle real and replica specimens to identify mammals whose diet includes fish! Surprises await in this last "mystery" program, which will follow with a "Track Printing Activity."

For questions, please contact the Visitor Education Center (VEC):

Located Off I-55, Exit 233, Adjacent to Enid Lake | (662) 563-8068 | www.MDWFP.com
