The Bob Tyler Fish Hatchery Presents:

The History of Ford's Well at Enid Lake

The MDWFP's Visitor Education Center (VEC) is part of the Bob Tyler Fish Hatchery and is located off I-55, Exit 233.

Learn more about the history of Ford's Well and Enid Lake!

Mike Robinson, former Resource Manager for the US Army Corps of Engineers at Enid Lake will present this historical program.

This program will focus on an area located on the south side of Enid Lake. Ford's Well was dug in 1898, and because of its high mineral content, became popular in the early 1900s as a cure for many ailments. Visitors enjoy the area today as they dig into the past and enjoy recreational opportunities like the 27-mile Spyglass Hill horseback trail and interpretive area including buildings such as the blacksmith shop, cabin, outhouse, and more!

The program is free with price of admission. Admission is $2.50 for adults ages 18-59, and $2.00 for youth ages 3-17 and adults over the age of 60.

When?	Where?
Saturday, May 30	Visitor Ed Center (Bob Tyler Fish Hatchery)
Time?	**Who?**
2:00 p.m.	Mike Robinson, Speaker
